

EXECUTIVE PROFILE

Operator-technologist who works directly in ambiguous workflows, connects technical and business teams, and builds operating mechanisms that turn emerging technology into adopted, measurable outcomes. Brings hands-on agentic workflow design, AI-readiness analysis, cross-functional delivery, executive communication, and high-consequence operating discipline. Currently based in Pittsburgh and actively relocating to the Tampa Bay area.

ROLE-ALIGNED CAPABILITIES

- | | |
|------------------------------|----------------------------------|
| AI use-case qualification | Agentic workflow design |
| RAG and grounding patterns | Human authority and guardrails |
| Evaluation and testing | API / integration reasoning |
| Client workshop facilitation | Adoption and operating ownership |

EXPERIENCE SELECTED FOR CROWE STUDIO

Vape-Jet · Director of Operations

2025–Present

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/ Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connects factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Works directly in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth · Founder / AI and Automation Advisor

2017–Present

- Develops AI-readiness and opportunity frameworks that assess value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advises on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis, and workflow design.

Amazon · Operations Management / Site Leader

2014–2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Served on the Amazon Prime Now launch team with Whole Foods; built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms.
- Applied Lean and Gemba practices across safety, quality, throughput, customer experience, and team engagement; contributed to Prime Air research and Amazon Flex geolocation concepts.

DELIVERY CONTRIBUTION

Direct build Work in workflow design, agent behavior, prompts/context, integration reasoning, tests, and client-ready artifacts.	Executive clarity Translate technical state into outcome, risk, evidence, authority, and the next decision.	Practice leverage Harvest reusable connector, evaluation, governance, workshop, and estimation learning.

COMPLEMENTARY TECHNICAL AND CONSULTING FOUNDATION

Compunetics · Director of Operations and Engineering Management2000–2013

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls; collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD.
- Published industry articles, delivered technical talks, and participated in the HyperTransport Consortium.

Cardinal Building Products · Regional Director2021–2023

- Built the company's first remote regional operation and modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.
- Advanced AI-enhanced transportation-management and route-planning concepts.

ZeusVu · Chief Pilot, Autonomous Systems and Aerial Data Operations2018–2022

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence; designed medical drone delivery and chain-of-custody concepts.

Enviro Social Capital · Chairman of the Board2014–2017IEEE · CMPT and EDS PittsburghChapter Chair2012–2016

- Co-founded and led a public-private impact initiative; helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh green infrastructure.
- Led regional programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.

TECHNICAL TOOLKIT

AI systems Agentic AI · LLM workflows · RAG patterns · prompt design · human-in-the-loop	Data and build Python · SQL · JavaScript · TensorFlow · Tableau
Operating systems ERP/Odoo · Jira · Confluence · HubSpot · Slack	Applied domains Robotics · machine vision · logistics · GIS and mapping · quality systems

EDUCATION

University of Pittsburgh · Bachelor of Science
STEM · Academic and industrial publications indexed at Google Scholar.

CREDENTIALS

Google AI Essentials	IBM Enterprise Design Thinking Practitioner	Six Sigma Certification	OSHA 10
