

EXECUTIVE PROFILE

Operator-technologist who works directly in ambiguous workflows, connects technical and business teams, and builds operating mechanisms that turn emerging technology into adopted, measurable outcomes. Brings hands-on agentic workflow design, AI-readiness analysis, cross-functional delivery, executive communication, and high-consequence operating discipline. Currently based in Pittsburgh and actively relocating to the Tampa Bay area.

ROLE-ALIGNED CAPABILITIES

- | | |
|------------------------------|----------------------------------|
| AI use-case qualification | Agentic workflow design |
| RAG and grounding patterns | Human authority and guardrails |
| Evaluation and testing | API / integration reasoning |
| Client workshop facilitation | Adoption and operating ownership |

EXPERIENCE SELECTED FOR CROWE STUDIO

Vape-Jet · Director of Operations

2025–Present

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/ Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connects factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Works directly in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth · Founder / AI and Automation Advisor

2017–Present

- Develops AI-readiness and opportunity frameworks that assess value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advises on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis, and workflow design.

Amazon · Operations Management / Site Leader

2014–2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Served on the Amazon Prime Now launch team with Whole Foods; built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms.
- Applied Lean and Gemba practices across safety, quality, throughput, customer experience, and team engagement; contributed to Prime Air research and Amazon Flex geolocation concepts.

DELIVERY CONTRIBUTION

Direct build Work in workflow design, agent behavior, prompts/context, integration reasoning, tests, and client-ready artifacts.	Executive clarity Translate technical state into outcome, risk, evidence, authority, and the next decision.	Practice leverage Harvest reusable connector, evaluation, governance, workshop, and estimation learning.
--	---	--

COMPLEMENTARY TECHNICAL AND CONSULTING FOUNDATION

Compunetics · Director of Operations and Engineering Management

2000–2013

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls; collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD.
- Published industry articles, delivered technical talks, and participated in the HyperTransport Consortium.

Cardinal Building Products · Regional Director

2021–2023

- Built the company's first remote regional operation and modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.
- Advanced AI-enhanced transportation-management and route-planning concepts.

ZeusVu · Chief Pilot, Autonomous Systems and Aerial Data Operations

2018–2022

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence; designed medical drone delivery and chain-of-custody concepts.

Enviro Social Capital · Chairman of the Board	2014–2017	IEEE · CMPT and EDS Pittsburgh Chapter Chair	2012–2016
• Co-founded and led a public-private impact initiative; helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh green infrastructure.		• Led regional programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.	

TECHNICAL TOOLKIT

AI systems Agentic AI · LLM workflows · RAG patterns · prompt design · human-in-the-loop	Data and build Python · SQL · JavaScript · TensorFlow · Tableau
Operating systems ERP/Odoo · Jira · Confluence · HubSpot · Slack	Applied domains Robotics · machine vision · logistics · GIS and mapping · quality systems

EDUCATION

University of Pittsburgh · Bachelor of Science
Academic grounding includes materials science, physical chemistry, and biology-related studies. Academic work is indexed at Google Scholar.

CREDENTIALS

Google AI Essentials	Food Safety Management Certification	IBM Enterprise Design Thinking Practitioner
Six Sigma Certification	OSHA 10
